

Sowmya K

Automation Test Lead | Quality Engineering Specialist
sowmya.email@example.com | +91-XXXXXXXXXX | India

Professional Summary

My journey in Quality Engineering has been driven by one belief: quality is not just about finding defects—it is about building trust. Over the years, I have transformed testing challenges into opportunities by designing resilient automation frameworks, mentoring teams, and aligning quality strategies with business outcomes. I thrive in complex environments where clarity, collaboration, and commitment make the difference between delivery and excellence.

Professional Experience Highlights

- Led enterprise-scale automation initiatives, reducing regression cycle time by 60% and improving release confidence across stakeholders.
- Overcame tight release deadlines by implementing risk-based testing strategies that protected critical banking workflows.
- Mentored and empowered QA engineers, fostering a culture of ownership, empathy, and continuous improvement.
- Collaborated closely with cross-functional teams to translate business needs into robust, scalable test solutions.
- Designed and implemented CI/CD-integrated automation frameworks using Playwright and Selenium.

Core Competencies

- Test Strategy & Planning
- Automation Framework Design (Playwright, Selenium, TypeScript)
- Retail & Banking Domain Expertise
- CI/CD Integration
- Stakeholder Communication & Leadership
- Agile & DevOps Methodologies

Education

Bachelor's Degree in Engineering
